

## ***The Furntech-AFRDI Blue Tick Specialist Office Seating***

### ***Furntech-AFRDI Certified Products***

The following product meets all of the strength, durability and stability requirements of AS/NZS 4438 *Height adjustable swivel chairs* but has some intentional variations from the Functional dimensions required in that Standard. Furntech-AFRDI makes no warranty about the suitability of this product for any particular user.

### ***Certification Criteria***

The Institute has clearly defined certification criteria for various items of furniture and furniture components. These are continually being expanded to meet demand.

The criteria generally include requirements for:

- (i) strength
- (ii) durability
- (iii) stability
- (iv) function e.g. fitness for purpose (usually including ergonomic and basic safety criteria)
- (v) flammability (where appropriate)
- (vi) reasonable finish and workmanship

The performance criteria adopted for Certification are usually based on Australian and New Zealand standards, or AFRDI standards, or – where these are not available or relevant – on other well recognised standards, such as British, CEN, BIFMA or ASTM, for example. In some instances where none of these exist, we may develop a set of customised requirements. Whichever route to certification is taken each of the requirements listed above must be met to our satisfaction.
